

Participate at the next Leadership webinar!

Dear ESHA members, friends, project partners,

During the Covid pandemic, most primary and secondary schools have closed their premises and a proportion of them introduced e-learning solutions. What did we learn from this period and how can we possibly implement effective e-learning as we are now facing the second Corona wave.

On **6 November 2020 at 2PM (CET)**, we will focus on Cyprus and how this beautiful small country learned during the pandemic with regards to the implementation of online education in primary and secondary schools. We will start with an introduction to the education system in Cyprus in order to understand the context. Then we will focus on the lessons learned with regards to the implementation of online learning. We are looking forward welcoming you at the webinar!

Please register by filling out the following form: <https://forms.gle/qgkqbjcVK9AicbWG6>

The ESHA office will personally send you all details for the webinar (login procedure and speakers) one week before the seminar. If you do not receive the link, please contact luca.laszlo@esha.org
